

An Intensive Workshop in Acrobat & Databases

- Course Title :** Linking Adobe Acrobat to Databases Workshop
- Duration :** ½ Day
- Pricing :** Basic: 1 person \$400, 2 people \$450 - [see web site for full details](#)
- Pre-requisites :** Familiarity with Acrobat, SQL and Databases.
- For Whom:** The course is intended for people who wish to use Adobe Acrobat as a secure front end to an ODBC database such as Microsoft Access or SQL server, or who wish to have dynamic content available within an Acrobat document.
- Course Objectives:** At the conclusion of the training participants will be able to -
- Create form fields in a PDF
 - Connect to an ODBC source
 - Understand the ADBC object
 - Run SQL commands within a PDF
 - Create simple Javascripts for ADBC
- Course Design:** This workshop is part of our FastTrack Training scheme.
- Training is undertaken in a one-on-one situation, or with a small group from the same workgroup. Throughout the course, the instructor will fully demonstrate and explain each new concept. This demonstration and explanation, coupled with plenty of practical exercises ensures that participants are able to meet the course objectives.
- Participants are encouraged to bring samples of their work, both hard copy and on disk to the workshop, as well as a list of questions.
- Notes are provided to each participant to take away at the conclusion of the training and each participant will have the exclusive use of a computer for the duration of the course.
