

An Advanced Workshop in Adobe GoLive CS

Course Title :	An advanced workshop in Adobe GoLive CS
Duration :	1 Day
Pre-requisites :	Introduction to GoLive CS or equivalent experience.
For Whom:	The course is intended for people working in GoLive, or similar packages such as Dreamweaver, who wish to build more sophisticated and automated sites with Adobe GoLive CS.
Course Objectives:	At the conclusion of the training participants will be able to -

- Use Smart Objects
- Add Actions
- Utilise JavaScripts
- Add External Objects
- Utilise Components
- Utilise templates
- Create forms on pages
- Create Rollovers
- Manage a Web site

Course Design:	<p>This workshop is part of our FastTrack Training scheme.</p> <p>Training is undertaken in a one-on-one situation, or with a small group from the same workgroup. Throughout the course, the instructor will fully demonstrate and explain each new concept. This demonstration and explanation, coupled with plenty of practical exercises ensures that participants are able to meet the course objectives.</p> <p>Participants are encouraged to bring samples of their work, both hard copy and on disk to the workshop, as well as a list of questions.</p> <p>Notes are provided to each participant to take away at the conclusion of the training and each participant will have the exclusive use of a computer for the duration of the course.</p>
