- Pre-requisites :** Familiarity with Computers.
- For Whom:** The course is intended for people who wish to create illustrations with full control of the image, including line shapes, thickness and fill. Custom colours and special effects are also covered.
- Course Objectives:** At the conclusion of the training participants will be able to -
- Create an Illustrator document
 - Create shapes in a drawing
 - Select the colours in the drawing
 - Reshape existing objects
 - Reshape curves
 - Create custom gradient fills
 - Fit text to a curve
 - Create Special Effects
 - Work with drawing layers
 - Apply 3D Effects
- Course Design:** This workshop is part of our FastTrack Training scheme.
- Training is undertaken in a one-on-one situation, or with a small group from the same workgroup. Throughout the course, the instructor will fully demonstrate and explain each new concept. This demonstration and explanation, coupled with plenty of practical exercises ensures that participants are able to meet the course objectives.
- Participants are encouraged to bring samples of their work, both hard copy and on disk to the workshop, as well as a list of questions.
- Notes are provided to each participant to take away at the conclusion of the training and each participant will have the exclusive use of a computer for the duration of the course.
