

An Introduction to Adobe Photoshop CS2

Course Title :	Introduction to Adobe Photoshop CS2
Duration :	1 Day
Pricing :	Basic: 1 person \$750, 2 people \$830 - see web for full details
Pre-requisites :	Familiarity with Computers.
For Whom:	The course is intended for people who wish to crop or touch up scanned images and photographs, create bitmap images or stylise drawings.
Course Objectives:	At the conclusion of the training participants will be able to -

- Customise Photoshop
- Crop & Deep Etch Images
- Select specific parts of an image
- Retouch scanned images
- Fine control the painting tools
- Transform parts of an image
- Apply custom filters
- Add text to an Image
- Work with Selections

Course Design: This workshop is part of our FastTrack Training scheme.

Training is undertaken in a one-on-one situation, or with a small group from the same workgroup. Throughout the course, the instructor will fully demonstrate and explain each new concept. This demonstration and explanation, coupled with plenty of practical exercises ensures that participants are able to meet the course objectives.

Participants are encouraged to bring samples of their work, both hard copy and on disk to the workshop, as well as a list of questions.

Notes are provided to each participant to take away at the conclusion of the training and each participant will have the exclusive use of a computer for the duration of the course.
