

An Introductory Workshop in Premiere Pro CS5

- Course Title :** Introduction to Adobe Premiere Pro CS5
- Duration :** 1 Day
- Pre-requisites :** Introduction to Windows or the Mac or equivalent experience.
- For Whom:** The course is intended for people who wish to create video clips, movie sequences or multi-media presentations with Adobe Premiere.
- Course Objectives:** At the conclusion of the training participants will be able to -
- Import clips to form a Premiere project
 - Rearrange clips
 - Trim clips
 - Mix audio clips
 - Apply transition effects between clips
 - Apply Filters and Effects to clips
 - Superimpose clips
 - Compile a movie
 - Export to tape and DVD

- Course Design:** This workshop is part of our FastTrack Training scheme.
- Training is undertaken in a one-on-one situation, or with a small group from the same workgroup. Throughout the course, the instructor will fully demonstrate and explain each new concept. This demonstration and explanation, coupled with plenty of practical exercises ensures that participants are able to meet the course objectives.
- Participants are encouraged to bring samples of their work, both hard copy and on disk to the workshop, as well as a list of questions.
- Notes are provided to each participant to take away at the conclusion of the training and each participant will have the exclusive use of a computer for the duration of the course.
